## Thanks to them, we eat better

### **Thierry - Butcher breeder Aveyron (12)**

At the head of the 7th generation of La Table de Solange, with Thierry it is above all a human adventure, that of a family motivated by the pleasure of the table, conviviality and sharing. In homage to the doyenne of the family, grandma Solange, he promotes the products of his family farm of Lariès and its soil through traditional breeding methods specific to the Aveyron region.

### **Jean Sarthe's farm - Duck breeder Landes (40)**

A typical farm located in Cauna, a small village on the banks of the Adour river, in the heart of the Landes production.

Guy, breeder from father to son, and Bruno, sons of 3 generations of curators, raise their ducks themselves and produce their feed on the farm. They have won numerous awards in agricultural competitions for their work based on animal welfare and the land on which they raise them.

### **Beñat - Cheese maturer- Saint-Jean de Luz (64)**

Located in the heart of the Halles de Saint-Jean, Beñat is the most passionate of cheese makers! In the Pyrenean mountains, he is constantly on the lookout for new artisan producers chosen for the quality of their work. Together with his wife, they select for you each week different ripened cheeses, authentic, made from raw milk and traditional farm or artisanal.

### **Pierre -Breeder of Porc Noir de Bigorre and cereal farmer Tarbes (65)**

For 40 years, a few dozen breeders have been fighting to save this emblematic pig of the South West. They are bred in the purest tradition, with respect for the pig and for nature. Among them is Pierre, a passionate breeder and cereal farmer.

Every morning, he checks the shape of his 280 pigs, which are fed on grass and acorns, to provide a ham of French quality, 100% Gascon.

**We could talk about it for hours... but now let's eat!**

---

## Getting an appetite

Black Pork Ham from Bigorre - **17**

---

Duck foie gras, black cherries - **15**

---

## **Benoit Perisse - Thenac**

One of the craziest winegrowers in the South West! Benoit, self-taught, has a blast every year trying new things in his vineyards, looking for new and surprising flavours and wines.

With his partner Leila, they go off the beaten track without ever losing sight of the history of their heritage. .

## **Alain Brumont - Montus**

For the past 40 years he has been fighting the battle of his life: to give back its letters of nobility to the wines of Madiran and to a grape variety in particular, Tannat. Known and recognised throughout the world, Alain Brumont is now passing on his indescribable passion for an extraordinary terroir to a young and dynamic team headed by his son-in-law Antoine. Transmission made in the South-West in its purest form..

## **Anne-Sophie Dubois - Fleurie**

Issue d'une famille originaire de Champagne, elle s'émancipe très jeune sur un petit coteau dans le Beaujolais. Aujourd'hui actrice majeure de sa région d'adoption, Anne-Sophie n'a qu'une envie : la liberté !

Une envie retrouvée dans son vin : gourmand, soyeux et délicat.

## **Matthieu Barret - Cornas**

Twenty years ago, Matthieu decided to convert his entire vineyard to biodynamic farming. He is known as one of the precursors of natural wine in one of the most prestigious the most prestigious appellations in the of the Septentrional Rhône Valley. Anxious to preserve his land, Matthieu says goodbye to tractors and back to the mule... Completely crazy!

## **Pierre Girardin - Pommard**

One of the most brilliant winemakers of his generation.

At only 23 years old, Pierre continues his technical and remarkable apprenticeship with his father in order to bring freshness and modernity to an emblematic Burgundy appellation.

## **Les frères Buisson - St-Romain**

Franck and Frédérick, sons of Gilles and grandsons of Henri, have taken over the family estate. Henri Buisson was already following the «organic» trends of his time, in the 1960s. Today, it is a vineyard that the two brothers run entirely biodynamically, playing with the fauna and flora to recreate a complete ecosystem around the vines.

**Enough talk, it's time for a toast!**
